**Presenters:**

Isabelle Duguay, MA Ps, LPCC, PCGC, has extensive experience establishing and implementing protocols and treatment programs in Problem Gambling and behavior change. She has developed training materials in problem gambling and PTSD for health care providers and therapists. Ms. Duguay has experience working with private and public employers developing services for the problem gambling population. Ms. Duguay now works in private practice where she sees clients with anxiety disorders, depression, and problem gambling.

Alan Basham, MA, is an experienced counselor educator and clinician who trains Mental Health Counselors and School Counselors at Eastern Washington University. He is Past President of the Washington Counseling Association and the Association for Spiritual, Ethical, and Religious Values in Counseling, a national division of the American Counseling Association. Among his professional interests are the integration of spirituality into the counseling process and the responsibility of society to help veterans return home to a welcoming and healing community.

Chuck Maurer, PhD, ABPP, NCQC-II, WSCGC-II, BACC, is a clinical psychologist in private practice in Seattle, and a certified gambling counselor in Washington State and nationally. He is on the Clinical Faculty of both the Graduate Department of Psychology and the Department of Psychiatry and Behavioral Sciences at the School of Medicine, University of Washington. Dr. Maurer has been President of the Board of Childhaven, the National Council on Problem Gambling, and the Evergreen Council on Problem Gambling. He has received numerous awards for community and professional service and advocacy.

Jessica Cronce, PhD, has more than a decade of experience conducting research on the etiology, maintenance, prevention, and treatment of addictive behaviors, in particular, alcohol use and problematic gambling among emerging adults. She received her PhD in clinical psychology from Yale University in 2009 and completed a postdoctoral fellowship at the Center for the Study of Health and Risk Behaviors in the Department of Psychiatry and Behavioral Sciences at the University of Washington in 2011. Dr. Cronce is a licensed clinical psychologist in the state of Washington.

PROBLEM GAMBLING TRAINING WORKSHOPS
BASIC AND ADVANCED LEVELS

The Schedule

PLEASE NOTE: Each session will begin promptly at stated time. Attendees must be present for entire session to receive CEU credit.

Tuesday & Wednesday, December 4-5, 2012
8 am—5 pm (with a one-hour break for lunch* on your own each day)
Basic Problem Gambling Counselor Training (16 CEU)
Presented by: Isabelle Duguay, MA Ps, LPCC, PCGC
Participants will learn about the scope and prevalence of gambling and problem gambling on a national scale, risk factors, and how the increased availability of gambling over the past ten years has affected the prevalence of gambling problems in the United States. The DSM-IV criteria for pathological gambling will be discussed, and participants will learn practical application of the most commonly used screening and diagnostic tools. This session outlines the types and sub-types of gamblers and several approaches to the treatment of problem gamblers. Participants will also learn about the disorders that most often co-occur with problem gambling, and the effects of the disorder on family and loved ones.

Thursday, December 6, 2012
8 am—Noon
Existential Factors in the Treatment of Problem Gambling (4 CEU)
Presented by: Chuck Maurer, PhD, ABPP, NC-GC-II, WSCGC-II, BACC
This advanced workshop will introduce participants to several existential factors and how they play out in the treatment of problem gamblers, for both the client and the therapist. While not exclusively for therapists who have worked with problem gamblers, it is recommended that each participant be prepared to ethically and sensitively present a case for discussion. This workshop will be interactive and focused on a mix of theory and research with an emphasis on practical application to practice.

Noon—1 pm Lunch break*
1—5 pm
Motivational Interviewing (4 CEU)
Presented by: Jessica Cronce, PhD
This training will provide an introduction to, and practice of, Motivational Interviewing principles and skills. By the end of this training you will be able to identify cognitions/behaviors consistent with different stages of readiness to change; recognize Motivational Interviewing spirit and principles; demonstrate fundamental Motivational Interviewing strategies for exploring and resolving ambivalence; and recognize and reinforce self-motivational statements regarding behavior change (i.e., change talk).

Friday, December 7, 2012
8 am—3 pm (with a one-hour break for lunch* on your own)
The Effects of Family Dysfunction: Understanding the Lost Child Roots of Addictive Pattern Behavior (6 CEU)
Presented by: Alan Basham, MA
This class will present three areas of knowledge relevant to treatment of addictive processes: 1) the Circumplex Model of family systems, examining the nature and effect of various forms of family dysfunction; 2) Bowlby's Attachment Theory and the adult results of childhood attachment disorders; and 3) the problematic interpersonal styles that lead some people to seek comfort and to avoid emotional pain through compulsive or addictive behaviors. In addition, Teyber's Interpersonal Process Model of Psychotherapy will be presented as an effective means of understanding and reaching clients. The class format will include information, personal application, and collaborative interaction by participants.

* MEALS: Beverage service will be provided. Meals are on your own.

DRIVING DIRECTIONS: Directions will be included with your registration confirmation.
