Low Risk:	An individual has answered “no” to all questions.
	Provide individuals with their score, give feedback on their risk level, and give literature regarding Gambling Disorder in case their behavior worsens or they have affected family/friends with whom they want to share.
MODERATE RISK:	An individual has responded “yes” to question 1, but has said “no” to all other questions.
	Provide or refer to a certified problem gambling counselor who can provide low risk intervention. Additionally, the clinician should discuss with the participant the continuum of gambling behaviors (e.g. recreation, at risk, problem, disorder), risk factors associated with moderate and problem gambling (e.g. medical issues), and guidelines to reduce risk for gambling problems.
HIGH RISK:	An individual has responded “yes” to question 1 <i>and</i> has said “yes” to at least <i>one</i> other question.
	Provide or refer to a certified problem gambling counselor who can provide low and moderate risk interventions. Additionally, review risk factors for problem gambling and options for further assistance, including self-help materials, referral for further evaluation and referral to Gambler’s Anonymous or a recovery support specialist.
