When *Focus on the Future* launched in 2007, we hoped it would provide opportunities for everyone working in the field of addictions treatment and prevention to learn more about problem gambling, network with colleagues, and share successes and challenges. It was a start. Today, we understand better the importance of and need for services along a full Continuum of Care. When we offer services from Prevention and Treatment to Intensive Treatment and After Care/Recovery Services — working together as community organizations, medical, behavioral, and governmental agencies — we can help people make healthier choices before addictive behaviors take hold, and reduce the chances of relapse during and after treatment.

This week, you’ll have opportunities to attend sessions with leaders in the field on a broad spectrum of topics from Grief Recovery, Clinical Supervision, Treatment Modalities, Suicide Outreach Efforts, Cultural Considerations for Treatment, Working with Veterans; and more. Two areas of special note during our Recovery Celebration Event — **Reenergize Your Recovery!** — this year are Recovery and Family Services.

Helping families navigate the challenges they face when a loved one has gambling and co-occurring disorders is vital. Without much-needed support for the individual in treatment and the family members who may need treatment and continuing support themselves, the risk of negative impacts looms large over the entire family.

Please join us for the Recovery Celebration and Recovery Services Fair on Wednesday, May 2, beginning at 4 p.m. It is a special afternoon of events to celebrate recovery successes and share insights and *Focus on the Future* of Recovery Services in the Pacific Northwest.

Thank you all for the great work you do to make a difference in the lives of so many and for sharing your passion and knowledge at *Focus on the Future* 2018.

Warmly,

Maureen L. Greeley
ECPG Executive Director
ABOUT THE EVERGREEN COUNCIL ON PROBLEM GAMBLING

The Evergreen Council on Problem Gambling (ECPG) is dedicated to increasing awareness of public health issues around problem gambling and gaming, expanding the availability and integration of services, and supporting advocacy, research, and programs for education, prevention, treatment, and responsible gambling and gaming. We provide confidential support for Washington State residents through our 24-hour Problem Gambling Helpline (800.547.6133) via phone, text, and chat, and public awareness, education, prevention, and resource development services for individuals, families, employers, students, the gaming industry, and business and community groups. ECPG also provides qualified training and certification programs and continuing education units (CEUs) for treatment professionals.

The Council offers support for residential treatment for problem gamblers and outpatient treatment for problem gamblers and family members, as well as education and public awareness programs to a wide variety of community and professional groups through presentations. The Council works with the gaming industry to provide employee training and responsible gaming policy and program development, and offers a Responsible Gaming Certification program.

The Evergreen Council on Problem Gambling is pleased to work with schools and youth groups, educators and PTAs, civic and social service organizations, and others to develop and tailor education and awareness programs to meet your needs. For more information, or to schedule a presentation, call our office at 360.352.6133.

STAY SOCIAL!

CONFERENCE PARTNERS

Oregon Council on Problem Gambling

The Oregon Council on Problem Gambling was established in 1996 and has been an affiliate of the National Council on Problem Gambling since 1998. The Council’s purpose is to promote the health of Oregonians by supporting efforts to minimize gambling-related harm through research, education, and advocacy.

Oregon Health Authority

Helping people and communities achieve optimum physical, mental, and social well-being through partnerships, prevention, and access to quality, affordable health care is the mission of the Oregon Health Authority. Problem Gambling Services is part of OHA’s Health System Division. Oregon invests more than five million dollars annually to reduce and/or prevent the negative effects of gambling.

CONFERENCE SCHEDULE

Monday, April 30

7 - 8 am
Registration
Foyer

8 am - 5 pm Pre-Conference Workshops

*What Lies Beneath: Grief Recovery, Problem Gambling, and Long-Term Abstinence*
Chinook

Presented by: Peter Drake Pennington, LPC, NCGC-II

Are you treating the grief associated with trauma? If not, your clients may be more susceptible to relapse. The Grief Recovery Method offers group and individual programs that you can integrate with your current recovery program to enhance your outcomes. You will participate directly with the material, learn from video case studies and discussions, have the opportunity to apply your knowledge, and participate in a round table discussion.

*Clinical Supervision and Case Management*
Klickitat

Presented by: Roger Humble, CADC-II, CGAC-II and David Corse, LPC, ACS, CADC-III, CGAC-III, NCGC-II

Clinical supervision for gambling counselors is a critical element in workforce development. This workshop will include basic definitions, an overview of the supervision process, and a discussion of clinical consultation requirements for certification of gambling counselors. The case management section of this workshop will provide participants with practical knowledge and tools on how to treat addicted gamblers and their loved ones, and how to manage cases. This session allows attendees to learn from experienced clinicians how to construct and carry out a treatment plan, and some of the most effective practices for treating problem gamblers.

Keynote Fort Vancouver Ballroom
*Cannabis and Gambling Disorder: What’s Lying in the Weeds?*
Presented by: Timothy Fong, MD

What do we really know about the relationship of cannabis and gambling? Dr. Fong will discuss the current landscape of how cannabis and gambling behavior interact, utilizing clinical cases and real-life scenarios to spotlight these relationships. This session will focus on understanding how legalization of cannabis is likely to impact gambling and gambling disorder in a variety of settings, from gaming venues to the treatment clinic. Clinical guidance will be offered to review best treatment practices on how to manage cannabis use disorders and gambling disorder.

10 - 10:15 am
Break / Exhibits Fort Vancouver Foyer

*Providing Dialectical Behavioral Therapy (DBT) for People with Gambling Disorders*
Presented by: Michael Goldman, MA, LPC, PCGC, CRADC, CEAP

Dialectical Behavioral Therapy (DBT) has become an effective evidence-based type of therapy for many problems, including for people who have a gambling disorder. DBT combines Cognitive Behavioral Theory with Mindfulness-based Stress Reduction. This presentation will look at the history and structure of DBT and how it works for people with gambling disorders.

**Prevention / Education / Innovative Trends** Klickitat
*Infusing Data-Driven Gambling Information into Existing SUD and Suicide Outreach Efforts*
Presented by: Andy Cartmill, CPS, QMHA and Eva Hawes, MPH, CHES

Youth who gamble often use substances and consider suicide more frequently than those who do not gamble. We know that youth who gamble tend to participate in other risky behaviors, but we did not know to what degree or how Washington County students, specifically, fared. By using data from the Oregon Student Wellness Survey (more than 9,000 Washington County students surveyed), we determined that youth who gambled in the past 30 days use tobacco, drink alcohol, and use other substances more frequently than those who did not gamble in the past 30 days. Participants will learn about the relationship between gambling and other risky behaviors and how to utilize local data to demonstrate similar relationships.

**Concurrent Breakout Sessions continued**

**Recovery / Community / Culture**

*Intersections Between Gambling, Substance Use, and Mental Health Challenges Among Veterans and Promising Treatment Approaches*

Presented by: Ty Lostutter, PhD, Troy Robison, PhD, and Tracy Simpson, PhD

An overview of problem gambling among US Veterans with additional attention given to co-occurring substance use disorders and mental health problems, and how Veterans compare with civilians on these issues. Course highlights: veterans’ reasons for gambling and their choices of treatment goals (i.e., abstinence from gambling vs. harm reduction); various aspects that complicate Veterans’ clinical presentation and recovery; review of extant literature evaluating gambling interventions among Veterans will be described, including challenges pertaining to retention in treatment. Novel elements of behavioral gambling interventions delivered clinically to Veterans at VA Puget Sound Health Care System, with anecdotal descriptions of patients’ responses to this treatment.

12:15 - 12:30 pm

Break / Exhibits

**Lunch Plenary**

*Stop Me Because I Can’t Stop Myself: Taking Control of Impulse Disorders*

Presented by: Jon Grant, JD, MD, MPH

The choice to engage in problematic or impulsive behaviors is complex and reflects a potentially wide array of biological, developmental, psychological, and cognitive dysfunctions. Building upon recent research in neurobiology and psychology, this presentation will examine what we currently know about impulsive behaviors and how best to treat them.

1:45 - 2 pm

Break / Exhibits

2 - 4 pm

**Concurrent Breakout Sessions**

**Clinical / Behavioral Health**

*Mental Health and Gambling Problems*

Presented by: Marc Potenza, MD, PhD

Clinical and epidemiological data suggest frequent co-occurrences between gambling disorder and other psychopathologies. This presentation will review data from large-scale epidemiological studies and clinical samples that examples patterns of co-occurrences and how they are moderated by gender, race/ethnicity, medical conditions, and other factors.

10

*Focus on the Future | 2018*
Clinical characteristics relating to gambling behaviors among groups with specific psychiatric groups (e.g., those with schizophrenia) will be discussed. Treatment approaches based in part on co-occurring disorders will also be presented.

**Prevention / Education / Innovative Trends**

*Therapy Animals - Horses as Healers; Canines and Compassionate Care*

Presented by Panel: Peter Christensen, Lisa Harman, Roger Humble, CADC-II, CGAC-II, and Kitty Martz, CGRM

Animal-assisted therapy is becoming increasingly popular. This introduction to therapy animals and how they are being used to help people will also look at the difference between service animals, therapy animals, and emotional support animals, and which of these types of animals can be used by therapists and their clients. Humans have had a profound relationship with horses since as far back as 10,000 BC. There is accumulating evidence that client engagement and positive recovery outcomes are supported by leisure skills groups. We will describe the fiscal and operational framework, challenges, and benefits of this progressive treatment option. Participants will have a live demonstration with an on-site therapy horse and opportunity to interact with an amazing four-legged “therapist”.

**Recovery / Community / Culture**

*Addiction Peer Recovery Support Services: And the Survey Says...*

Presented by: Jeff Marotta, PhD, ICGC-II and Eric Martin, MAC, CADC-III, PRC, CPS

Review the findings from an assessment of the Portland metro tri-county region’s addiction peer recovery support services within publicly funded behavioral health systems. The assessment included a survey of 34 addiction disorder and co-occurring peer delivered service (PDS) programs, survey responses from 124 PDS supervisors and peers, and discussions with more than 60 key informants during structured interviews and think tank focus groups. Findings from this project’s environmental scan of peer delivered services documented several challenges faced by administrators, supervisors, and peer workers in their efforts to implement peer delivered service programs. Possible solutions to address several of the issues brought to light will include those related to recovery support services for problem gamblers.

10:15 am - Noon
Concurrent Breakout Sessions
Clinical / Behavioral Health
Clinical Assessment and Management of Gambling Disorder
Presented by: Jon Grant, JD, MD, MPH
This workshop will present what is known about the clinical presentation, neurobiology, and psychology of people with gambling addiction. The presentation will discuss developmental issues, genetics, and cognitive aspects of gambling addiction. In addition, the talk will focus on evidence-based treatments used for people with gambling disorders.

Prevention / Education / Innovative Trends
Transition-Age Youth and Sports Betting
Presented by: Rick Berman, LPC, CGAC-II, Marc Potenza, MD, PhD, and Chris Stearns
Sports betting is a common entry into gambling for young people of all genders. This presentation will discuss the types of sports gambling 18-24 year-olds participate in and what current research suggests about the links between sports betting and problem gambling among transition-age youth. The presentation will have a focus on explaining esports and esports gambling, as this is unfamiliar to most people older than 30.
Recovery / Community / Culture  

Stable Housing as a Social Determinant of Health  

Presented by Panel: Louise Dix, Melodie Pazolt, and Cary Retlin

Access to stable housing and the supports necessary to maintain that housing constitute one of the most basic social determinants of health. In particular, for individuals and families trapped in a cycle of crisis and housing instability due to extreme poverty, mental illness, addiction, or other chronic health conditions, housing can dictate their health and recovery. Review how these evidence-based services — supportive housing and supported employment — provide the supports necessary to help individuals obtain and maintain housing and employment. Look at how the Fair Housing Act protects those individuals with mental and physical disabilities against housing discrimination and how you can advocate on behalf of your clients to help them receive the housing accommodations they need.

Noon - 1:30 pm

Lunch Plenary  
Fort Vancouver Ballroom

Talkin’ ‘Bout My Generation

Presented by: Don Feeney, MPP, MS

Different generations are exposed to different formative experiences and are brought up with different cultural images. It should come as no surprise that these differences are reflected in gambling behavior and attitudes. Examine the differences between the Silent Generation, Baby Boomers, Generation X, Millennials, and Generation Z and explore how their life experiences are reflected in their gambling. Review critical formative experiences—World War II, the moon landing, the 1990s economic boom, the Great Recession—with an eye to their impact on gambling as well as look at the cultural images that have influenced each generation ranging from the Marx Brothers to James Bond to The Last Jedi. Discuss how generational differences should be taken into account when designing treatment, prevention, and responsible gambling programs.

1:30 - 3 pm

The Impact of Gambling Disorder on Physical Health

Presented by: Timothy Fong, MD

Gambling disorder can have a significant impact on physical health, including consequences on sleep, cardiovascular functioning, memory, and other stress-related illnesses. This session will review the current state of knowledge around how gambling disorder impacts physical health and vice versa. Emphasis will be placed on encouraging treatment providers to discuss physical health and self-care as part of the comprehensive treatment plan for gambling disorder patients. Office-based treatment techniques and strategies to promote exercise, weight loss, health maintenance, and positive self-care will be emphasized and reviewed.

Getting Ahead of the Curve – Problem Gambling and Prevention

Presented by: Elizabeth Glavish, BA and Maggie Koziol, MS

This session will take an in-depth look into problem gambling prevention – from education on emerging gambling trends to building an effective prevention campaign. Special attention will be paid to youth prevention and will include an examination of campaigns currently supported by the Evergreen Council on Problem Gambling.

Recovery / Community / Culture  
Cowlitz

Culturally Responsive Treatment for Problem Gambling

This session will be a panel discussion of individuals sharing their cultural background and experience as it relates to treating problem gambling clients. Each member will detail cultural norms and competencies that support positive treatment engagement and outcomes. Participants will walk away with a clearer understanding of represented cultural norms and an overall understanding of the importance of cultural competency in the treatment of gambling disorder.

Introduction to Mindfulness Approaches for Treating Disordered Gambling

Presented by: Ty Lostutter, PhD

Mindfulness is the psychological process of paying attention, on purpose, to one's present experiences in a non-judgmental way. Mindfulness-based Cognitive Behavioral Therapy (CBT) has a growing evidence-base in the treatment of psychological disorders, including gambling and other addictive disorders. Dr. Lostutter will provide a theoretical model of mindfulness for the treatment of addictions, especially gambling. He will talk about how to introduce mindfulness into gambling treatment with patients. The talk will include experiential exercises as an introduction to Mindfulness Meditation concepts, and discuss ways to incorporate mindfulness practice within CBT treatment.
**Prevention / Education / Innovative Trends**

*EMDR Therapy: An Effective Adjunct to Addiction Treatment*

Presented by: Jeanne Meyer, MS, LMHC, LPC, MAC

Based in part on the article “EMDR for the Co-Occurring Population,” Counseling Today, 5/29/2014, this presentation will give an overview of the eight phases of the EMDR Therapy protocol. A brief description of the EMDR therapy effects on the neurobiology of the brain will follow. The session will summarize three specific protocols (Feeling State, DETUR and Cycle Model) for alleviating compulsion and euphoric recall. Participants will discuss how to determine appropriate timing for processing trauma.

**Recovery / Community / Culture**

*Responsible Gambling Programs and Tribal Nations*

Presented by Panel: Daniel Felizardo, D.Min, LPC, CDP, Brad Galvin, MS, CDP, LMHC, NCGC-I, and Melissa Hurt-Moran, CDP

Whether your tribal problem gambling treatment and prevention program is newly started or well-established, this session is for you! We will learn from each other’s successes and challenges in creating our tribal problem gambling program. Subtopics to be covered include outreach, marketing, treatment curriculum, and provider credentialing; the session’s focus will adapt to participant interest and need, so please bring your questions!
**PRESENTERS**

**Rick Berman, LPC, CGAC-II**, has more than two decades of experience working in the problem gambling field as a counselor, supervisor, administrator, and educator. He is a faculty member in the Graduate School of Education and Counseling at Lewis & Clark College in Portland, Oregon. He is also Director of Lewis & Clark Problem Gambling Services, a training and research clinic.

**Andy Cartmill, CPS, QMHA**, has 31 years of experience in community health education. He has presented to local, regional and national audiences concerning health, wellness, and the nature of addiction. Since 1997, Andy has served as a Senior Program Educator with Washington County’s Addiction Services program, and is responsible for education and outreach. Andy is a certified trainer for suicide intervention programs QPR (Question Persuade Refer) and ASIST (Applied Suicide Intervention Skills Training), as well as Mental Health First Aid.

**Stacy Charpentier, RCP, CPRS**, joined CCAR in January 2013. As a recovery ally, Stacy brings her experience of having a parent in long-term recovery to her position as the Director of the Center for Addiction Recovery Training. She strives to develop and market new, innovative, and high-quality training programs for the performance enhancement of both CCAR Trainers and CCAR trained Recovery Coaches. Stacy believes that by putting a face on recovery, more people will come forward seeking help through hope and the possibility of sustained long-term recovery.

**Peter Christensen** is founder and president of Columbia River Pet Partners, a therapy animal organization of more than 200 members serving the greater Portland/Vancouver area. As a licensed Pet Partners instructor, Peter has guided hundreds of volunteers and professionals in becoming registered therapy animal teams to serve in schools, libraries, businesses, assisted living homes, hospitals, hospices, and private practices. Peter has a passion for helping to eliminate the confusion over the differences in service, emotional support, and therapy animals.

**David Corse, LPC, ACS, CADC-III, CGAC-III, NCGC-II**, is an experienced counselor, program manager, and clinical supervisor. In addition to managing and supervising co-occurring and problem gambling programming, David has taught clinical practicum and theory at the graduate school level. He has worked in mental health and addiction crisis as Operations Director for the Portland affiliate of the National Suicide Prevention Lifeline. He operates a private practice in the Portland area working with people dealing with substance addiction, process addiction (including problem gambling), relational issues, and mental health.
Louise Dix is the Education and Outreach/AFFH Specialist for the Fair Housing Council of Oregon. Ms. Dix is an ATD Master Trainer™. Prior to joining the Fair Housing Council, Ms. Dix administered the Community Development Block Grant, HOME and Neighborhood Stabilization Programs for 12 years, first for the City of Medford and then for the City of Gresham. She was involved in the development of housing policy for both jurisdictions and took an active role to assure that both communities were affirmatively furthering fair housing.

Don Feeney, MPP, MS, is President of the Northstar Problem Gambling Alliance, the Minnesota affiliate of the National Council on Problem Gambling (NCPG). Don served on the NCPG Board of Directors and was President from 2011 to 2013. His research interests include the relation between public opinion and gambling policy, public awareness of problem gambling, and gambling and popular culture. Don holds a Master’s degree in public policy from Harvard and a Master’s degree in Statistics from the University of Minnesota. In 2017, Don was honored with NCPG’s award for lifetime achievement in advocacy.

Daniel Felizardo, MPA, CDP, is the Program Manager for the Puyallup Tribal Treatment Center, as well as an NIATx process improvement coach working with tribal behavioral health systems to improve access and retention in treatment.

Timothy Fong, MD is a Professor of Psychiatry at the Semel Institute for Neuroscience and Human Behavior at UCLA and Director of the UCLA Addiction Psychiatry Fellowship. Dr. Fong is also the co-director of the UCLA Gambling Studies Program, which examines the underlying causes and clinical characteristics of gambling disorder to develop effective, evidence-based treatment strategies. Dr. Fong is the faculty director of the UCLA Cannabis Research Initiative, which examines the impact of cannabis on body, mind, and brain.

Brad Galvin, MS, LMHC, CDP, NCGC-I, has more than a decade of experience in the chemical dependency, mental health, and problem gambling fields. Brad has served in multiple capacities within tribal behavioral health programs, including managerial and direct service roles. He helped to develop ECPG’s Responsible Gaming Program policies and procedures training modules to help ensure potential gambling-related harm to casino employees and patrons is minimized. Brad currently runs the responsible gambling treatment program at Lummi Nation.
Jose Garcia, CADC-I, NCAC-I, CGAC-I, has been a CADC-I since 2002, and is also an NCAC-I and CGAC-I. He has been a member of the Advisory Board for Umatilla County’s Local Alcohol and Drug Program Committee since 2003 and is a member of the Multicultural Advisory Committee on Problem Gambling for the State of Oregon. Jose is the director of New Horizons Treatment Program in Hermiston, Oregon. Jose is of Mexican ancestry and has resided in the US for the majority of his life.

Elizabeth Glavish, BA has a strong background in nonprofit communications, working in both the community prevention and mental health fields before joining the Evergreen Council on Problem Gambling staff in May 2016. A graduate of Central Washington University, Elizabeth holds a BA in Public Relations as well as a BA in Psychology, which she is excited to put to use for ECPG.

She is Clinical Director and Recovery Coach for the Tacoma Recovery Café, helping individuals seeking support for chemical dependency and homelessness.
PRESENTERS

Jeff Marotta, PhD, NCGC-II is President and Senior Consultant with Problem Gambling Solutions, Inc. Jeff has a Doctorate in Clinical Psychology and is certified as an NCGC-II. He has served as a university instructor and researcher, a mental health clinician, a government administrator, and executive director for non-profit organizations. From 2000 to 2007, he administered and developed the State of Oregon’s problem gambling treatment and prevention system, and has since assisted with the development of programs and policies to address problem gambling.

Eric Martin, MAC, CADC-III, PRC, CPS is Past President and Director Emeritus of the Addiction Counselor Certification Board of Oregon (ACCBO). He is a state and nationally certified addictions counselor with 26 years of clinical experience in inpatient psychiatric hospitalization, residential and outpatient addictions treatment, and alcohol, tobacco, and other drug prevention. He serves in a leadership capacity to numerous community boards, including New Columbia CREW, the African American Addiction Recovery and Counseling Association, Voices of Problem Gambling Recovery, and as legislative liaison for ACCBO.

Kitty Martz, CGRM is a Certified Gambling Recovery Mentor and lifetime rider who has participated in equine activities as an important part of her own problem gambling recovery. Her passion as a peer support specialist is to motivate clients to increase their meaningful connections, participate in vital absorbing lifestyle activities, and heal their traumatic wounds, all of which she has personally experienced as possible through equine activities.

Teresa McDowell, Ed.D, LMFT is a co-founder of Lewis & Clark’s Problem Gambling Services. She is the lead investigator in a funded research project identifying mediators of change in problem gambling treatment. She is a family therapy educator, supervisor, scholar, and researcher who has been involved in family treatment for problem gambling for the past 5 years.

Jeanne Meyer, MS, LMHC, LPC, MAC has more than 20 years experience working in the mental health field, including substance abuse treatment. She is a Certified Therapist in Eye Movement Desensitization and Reprocessing (EMDR), which she uses for a number of health issues including simple and complex PTSD and physical problems that have an emotional component.
Debra Neal, LCPC, BACC, ICGC-II began working with problem gamblers in 2000. She has two decades of clinical experience working with families, couples, and individuals affected by mental health and substance abuse. Ms. Neal treats a large population of problem gamblers and families in problem gambling recovery using an intensive outpatient, solution-focused framework. Her focus is long-term engagement using Motivational Enhancement, CBT, and family therapy modalities.

Azusa Ogawa, MS, CGAC-II, CADC-I, is the first and only native Japanese person who is a Certified Gambling Addiction Counselor in Oregon, and has been since 2013. She was on the Multnomah County Asian Problem Gambling Advisory Committee beginning in 2012. Azusa is an active member of the Multicultural Advisory Committee for Problem Gambling Services in Oregon and focuses on providing outreach to the Japanese population who are affected by problem gambling in Oregon.

Janese Olalde, M.Ed, MFT, CADC-II, CGAC-II, has more than 17 years of experience in the addiction field and 18 years as an educator. She has worked with Spanish speaking clients for more than 16 years and has been involved in the Latino community for more than 30 years. She has a Master’s in Couples and Family Therapy, works as an addictions trainer, and has a private therapy practice in both Spanish and English in Eugene, OR.

Melodie Pazolt has more than 30 years of experience in community rehabilitation with people with mental illness and with developmental disabilities. She was the manager of the Columbia River Mental Health Services Clearview Employment Program. Prior to her position at DSHS – DBHR, she worked for the Clark County Department of Community Services as the Consumer and Stakeholder Affairs Manager. Ms. Pazolt is currently the Recovery Support Services Supervisor for the Division of Behavioral Health and Recovery.

Peter Drake Pennington, LPC, NCGC-II founded END Problem Gambling, Inc. to educate communities about gambling addiction, connect people with recovery resources, and improve treatment solutions. He has worked on documentary films, social media campaigns, and public speaking projects across the country. He is a certified Grief Recovery Specialist trained in using the Grief Recovery Method with gamblers to address the underlying trauma that creates a need to escape through unhealthy behavior.
PRESENTERS

Marc Potenza, MD, PhD is a board-certified psychiatrist with subspecialty training and certification in Addiction Psychiatry. He is a Professor of Psychiatry, Child Study, and Neuroscience at the Yale University School of Medicine, where he is a Senior Scientist at the National Center on Addiction and Substance Abuse and the Director of the Problem Gambling Clinic, the Center of Excellence in Gambling Research, and the Women and Addictive Disorders Core of Women's Health Research at Yale.

Cary Retlin is the Behavioral Health Housing Administrator at the Washington State Department of Commerce. He is committed to improving housing for people with behavioral health and substance use challenges, especially those who are homeless or at risk of homelessness. He headed up the Statewide Reentry Council and served as interim Executive Director. The Council is focused on increasing the success of people reentering the community after incarceration. He also staffed the Governor-appointed Affordable Housing Advisory Board.

Troy Robison, PhD is a clinical psychologist at VA Puget Sound and facilitates a gambling disorder treatment group for military veterans in the Addiction Treatment Center at the American Lake campus. His primary clinical focus is on the residential treatment of substance use disorders and co-occurring mental health concerns. Prior to his time at Puget Sound, he worked as a post-doctoral resident in the Gambling Treatment Program at the Louis Stokes VA. His other clinical interests include mindfulness based interventions and behavioral couples therapy for substance use disorders.

Tracy Simpson, PhD has more than 25 years of research and clinical experience studying and treating addiction, trauma, PTSD, and co-occurring substance use problems, and has been providing these services at VA Puget Sound for 18 years. Her primary areas of expertise include conducting randomized clinical trials evaluating promising medications and behavioral interventions for alcohol use disorders. She also has particular expertise regarding women veterans’ substance use and harm reduction approaches to treating addictions.

Commissioner Chris Stearns is an attorney specializing in Indian law. He served four years as Counsel to the US House Committee on Natural Resources and was the first Director of Indian Affairs for the US Department of Energy. He is past Chairman of the Seattle Human Rights Commission. He was appointed to the Washington State Gambling Commission in July 2013 and, in October 2014, was unanimously elected Chair of the Commission. He has been instrumental in keeping gambling legal and honest in the state of Washington.
